If you're already familiar with our Endurance Collection of melamine, then you know that it delivers the gorgeous look of fine porcelain and the durability, easy sanitization and lightness of melamine. If you're not, then it's time to get acquainted! These unique concave platters set an eye-catching stage for even the most elegant menu items.

The rimless, concave design of this 16" square platter is a contemporary take on a classic appetizer plate. Its subtly curving edges bring out the best in your culinary creations, and a round foot underneath keeps the platter from sliding. Normally, you'd expect this kind of elegant presentation to come at the cost of functionality, but thanks to the power of melamine, this platter is an easy-to-use dream come true. Not intended for microwave-use.
