Pack: 12

Cu. Ft.: 1.91

Weight: 13 lbs

It's the details that make our Angled Double Wall Bowls shine. Double-wall construction helps keep your creations at proper serving temperatures and reduces condensation buildup on the outside of the bowls. Look at the bottom and you'll see a pair of indentations that allow each bowl to be tilted for easier access or just to create an attention-grabbing angle. Finally, these bowls are crafted from durable 18/8 stainless steel so you can look forward to using them for years to come.

This petite 23 ounce angled double wall bowl is a unique presentation solution for restaurants, buffets or catered events. Tilt the bowl for a more theatrical display, or keep it upright for a more traditional look and use. Whether you're serving a pasta salad or a chilled dessert, this bowl will intrigue customers from any angle. And because it reduces condensation and increases insulation thanks to its double-wall make, it boasts easy handling and exceptional safety while serving.
