Long live the mighty seafood tower. This collection of multi-sized trays is designed to retain cold temps that not only keep shrimp, oysters and crab cold, but also reduce the rate at which ice melts. So your display stays as fresh-looking as your seafood. An attractive addition to any high-end brunch buffet or happy hour, stacking also minimizes the need for table space. Stainless steel stays new for years. When not dazzling guests, the trays stack nicely for neat storage.

(Hint: Get the American Metalcraft compatible display rack and start building your empire.)

Get ready for the party. Here's the way to wow guests with oysters, shrimp and the rest. Use this 12-1/2" diameter seafood tray to keep seafood and ice cold. Or create more impact by stacking with compatible pieces and one of our racks. Not only does a tower mean drama, it allows you to save space. Durable stainless steel never quits and stacks to store easily.
