Pack: 6

Cu. Ft.: 1.89

Weight: 24 lbs

Our pizza peels are one-of-a-kind! With these 42"-long deluxe wood peels, you can bake, slice, and serve your pizzas all in one place. They are specially designed with long handles, allowing you to safely place food further back into the oven than if you were to use your hands alone. Plus, their blade features tapered edges that gently slide under dough without damaging its delicate structure during transfers. Once your pizza is baked to perfection, simply slice and serve it to your patrons right on the peel! The all-wood construction adds an authentic, rustic look to any tabletop or venue.

With a length of 21" and width of 20", this deluxe rectangular all-wood peel is perfect for sliding giant pizzas in and out of the oven. Measuring at an overall length of 42", this peel keeps your hands outside of the hottest parts of the oven and safe from burns. This means you can place food further back into the oven than if you were to use your hands alone. The deluxe wooden blade with tapered edges gently slides under pizzas and helps maintain the delicate structure of the dough during transfers. The wooden handle offers a secure, comfortable grip, so you can transfer food quickly without any droppage. Designed with versatility in mind, this peel also conveniently functions as a cutting and serving board. Use this peel at your pizzeria, restaurant, or hotel kitchen. Made in a North American Free Trade Association member country. To care for your wood peel, wipe it clean with a damp cloth without soaking.

- Poplar Wood
