18" X 26" X 3-1/8" PLASTIC

List Price: \$97.40 EA

Pack: 6

Cu. Ft.: 5.52

Weight: 25 lbs

These dough boxes and lid make proofing and storing pre-made dough as easy as pie! Once your dough is kneaded, simply pop it in one of the 3-1/8", 3-1/2", or 3" deep containers and cover it to lock in moisture. Your dough will rise to perfection! Repeat this process as many times as you'd like – these boxes securely stack, so you can prepare loads of pizza and bread dough in advance while still maintaining a tidy kitchen. Designed for industry use, these boxes feature a tough plastic construction that ensures long-lasting durability.

Measuring 18" L x 26" W x 3-1/8" H, this premium heavy-duty dough box is perfect for storing pizza and bread dough. Designed for commercial use, this rectangular box will last for years on end. The non-stick coating allows for efficient dough preparation by eliminating the need for pre-soaking. For your convenience, this plastic is dishwasher safe and easy to maintain. Cross-stack lugs enable fast and secure stacking for space-saving storage. This box is interchangeable with most other dough boxes. Use it at your pizzeria, restaurant, bakery or hotel kitchen. Made in the US.
