With our large collection of spoons, you can now scoop, portion, and serve using just one tool! Featuring deep bowls in your choice of solid or perforated, these one-piece spoons can transport both solids and liquids with ease. Each spooner has a color-coded Bakelite 10 3/4" (27.3 cm) grip handle and stamped capacity number, making size identification quick and easy. The handle is cool to the touch, with a built-in stopper notch to keep the spoon from sliding into your food. When you're finished, simply hang the spoon on a wall or rack for space-saving storage. If you want a product that offers convenience, efficiency, and consistency, this is it!

This 2 oz. spooner with red handle functions as a serving spoon, ladle, measuring cup, and strainer – all in one! Featuring a durable stainless steel bowl with a 2-1/2" diameter, this portion spoon makes it easy to scoop your delicious fruit salads, black beans, chickpeas, olives, and other salad bar ingredients. The bowl's deep, perforated construction allows you to portion and transport ingredients and foods with ease, while also draining unwanted liquids that would otherwise get your dishes soggy or full of water! Designed for commercial use, this spoon has a color-coded Bakelite 10-3/4" grip handle. Not only does this handle offer a secure, cool-to-the-touch grip, but it also keeps your hands a safe distance from hot cooking components. Plus, the handle's built-in stopper notch keeps the spoon from sliding into your food. Best of all, this spooner has a stamped capacity number in addition to the colored handle, allowing for easy identification. It is specially designed to ensure convenience, efficiency, and consistency, while maximizing your profits. When you're finished, simply hang the spoon on a wall or rack for space-saving storage. Use this high-quality spooner at your buffet line, catered event, restaurant, deli, bakery, or hotel. Dishwasher safe for hassle-free handling.
