Weight: 35 lbs

Flip burgers and serve pizza slices using just one tool! Designed with a stainless steel offset blade and black cool-to-the-touch handle, our heavy-duty hamburger turners / pizza servers help maximize efficiency in your commercial kitchen. They are available with straight or rounded edges, both of which slide under your burgers and pizzas with total ease. These versatile turners are durable and sleek, making them the ideal choice for back-of-house and front-of-house use!

This 11-5/8"-long heavy-duty hamburger turner/pizza server is the ultimate two-in-one product! Its stainless steel offset blade measures at a length of 5" and width of 3". The blade's straight edges scrape up your burger patties and pizza slices with precision, ensuring that every last bit of flavor is lifted from the grill or pan. The blade is also sharp enough to chop up steak, poultry, and vegetables while cooking, eliminating the need to pre-cut product. The durable, cool-to-the-touch black plastic handle provides a firm, comfortable grip, helping to prevent fatigue during repetitive use. It also offers an attractive presentation for front-of-house serving. When flipping, this grill spatula's overall long length keeps your hands a safe distance from sizzling foods and free of hot grease splatter. Constructed for long-term commercial usage, this turner/server is resistant to corrosion and will prove reliable in your busy kitchen for years on end. Use this turner/server at your pizzeria, steakhouse, fast-casual restaurant, diner, food truck, concession stand, or hotel kitchen. Dishwasher safe for easy handling.
