Weight: 26 lbs

Did you know fries are ranked as one of the most ordered food items at restaurants? Keep up with the high demand with American Metalcraft's french fry scoops! Our scoops are crafted from durable stainless steel, and have plastic handles to protect hands from heat. Because of the large top opening, you can efficiently scoop up large quantities of fries in one go. There's also a built-in funnel, so you can pour fries directly into serving containers free of spills! Choose between right-handed or ambidextrous use.

Keep up with your establishment's high demand of french fry orders with this dual handle french fry scoop! Measuring at a length of 8-7/8", width of 8-1/2", and height of 2-1/2", this scoop with its large top opening allows you to gather large quantities of fries in one go. Your customers are sure to be impressed by your speedy service. This tool's efficient design also features a built-in funnel, so you can pour fries directly into serving containers with precision and ease. No spills or wasted product here! Made for ambidextrous (left- or right-handed) use, this scoop has two sturdy plastic handles that offer a comfortable and secure grip. The handles also protect your hands from heat and ensure they are safe from burns when working with hot oils or cooking components. Because of this scoop's durable stainless steel construction, it will remain rust and corrosion free for years on end. Use this french fry scoop at your fast food restaurant, grille, food truck, or hotel kitchen. Dishwasher safe for easy handling.
