Cu. Ft.: 2.20

Weight: 39 lbs

Our square fine mesh skimmers are some of our most popular kitchen products! Available in two different sizes, these nickel-plated stainless steel skimmers safely and easily lift ingredients from stockpots, steamers, and fryers. Their 14"-long handles keep your hands safe from hot grease and burns, so you can work confidently and quickly in your fast-paced kitchen. When not in use, these strainers conveniently hang for space-saving storage. Not only are they highly functional, but their durability goes unmatched!

This 7" square fine mesh skimmer is one of our hottest sellers! Featuring durable mesh and a 14"-long handle, this nickel-plated stainless steel skimmer safely and easily lifts ingredients from stockpots, steamers, and fryers. Use it to strain pasta, cook poached eggs, remove any straggler fries and onion rings from the bottom of your fryer, and more. This versatile tool can pretty much do it all! Plus, its lengthy handle offers a secure grip, while ensuring your hands are safe from hot grease and burns when working in your fast-paced kitchen. When not in use, the handle has a convenient hanging hole for space-saving storage. Designed for commercial use, this utensil will stay intact for the long haul. Add this skimmer to your restaurant, diner, grille, food truck, or hotel kitchen. Dishwasher safe for hassle-free handling.
