Cu. Ft.: 0.79

Weight: 6 lbs

With our standard stainless steel egg rings, you will quickly become the hottest breakfast spot in town! Available in three different diameter sizes, these durable molds create perfectly-round and consistently-sized fried eggs and patties. Your customers will be "egg"static about the quality of their breakfast sandwiches! For your convenience, these rings are specially-designed with an angled handle that offers easy use and lifting. The best part? The ring's 1"-high wall prevents leaks, so you will no longer have to worry about food waste, cross-contamination, and labor-intensive messes!

Serve perfectly round eggs in your breakfast sandwiches with this standard egg ring. Constructed of durable stainless steel, this tool is a high-quality choice for your commercial kitchen. It features a 4"-diameter mold, creating consistently sized fried eggs and patties that fit just right in between English muffins and bagels. It's even great for making silver dollar pancakes and hash browns! The 1"-high wall prevents leaks, so you will no longer have to worry about eggs running all over your grill. This not only helps prevent cross-contamination for food safety, but also reduces food waste and clean up time. Even better, the integrated handle and 3-7/8" overall height keep your hands a safe distance from the hot griddle. The handle also has an angled design for easy use and lifting. Use this versatile tool at your breakfast restaurant, café, diner, food truck, or hotel kitchen. Dishwasher safe for easy handling.

- Stainless Steel
- Silver
- Dishwasher Safe
- Perfectly Circle, Consistently Sized Eggs
