Available in every form you can imagine, we are bound to have the best pair of tongs for you. From one-piece, streamlined designs to more complex and more ergonomic constructions, to the perfect item for every type of food, you can find the design you need.

Hammered stainless steel is a stunning, voguish finish for everything – including these 6-1/2" long ice tongs. These ravishing tongs are one continuous piece, so you don't need to worry about breakage or losing a screw. This piece will make serving ice simple and beautiful. Pair with our hammered stainless steel tubs to complete the look!
