Designed for easy, controlled serving, these scissor-style tongs come in a variety of designs to handle any salad.

The 10" length and the scissor structure of these salad tongs ensures it's easy to open, use, and close. The ends of these tongs are a combined spoon and fork design, ensuring that servers can easily pick up and hold food without losing anything along the way. Best of all, they are constructed from stainless steel, making them dishwasher-safe and durable for long-lasting heavy usage.
