The dark side never looked better than on these unique wood boards. The wood is carbonized to give off rich colors and patterns on both sides.

This 10" L x 9" W carbonized bamboo serving board sets a complementary stage for hors d'oeuvres, bread and cheese boards. The bamboo's natural wood grain gives each piece a one-of-a-kind pattern of warm earth tones. This brilliant serving board is reversible, too, so you can decide on the fly whether a darker or lighter backdrop will make your food look best. It's the elegance of nature put to good use: making your culinary creations shine. Hand-wash only and wipe down with a damp cloth after use.
