The dark side never looked better than on these unique wood boards. The wood is carbonized to give off rich colors and patterns on both sides.

This 18-1/4" L x 5-3/4" W carbonized bamboo serving board sets a complementary stage for hors d'oeuvres, bread and cheese boards. The bamboo's natural wood grain gives each piece a one-of-a-kind pattern of warm earth tones. Best of all, this serving board is reversible, with one side being a rich, dark brown color, and the other being warmer, brighter brown. Decide depending on whatever you're serving which side will be best. It's the elegance of nature put to good use: making your culinary creations shine. Hand-wash only and wipe down with a damp cloth after use.
