At first glance, these boards look like beautiful acacia wood serving pieces. But upon closer examination, they're actually crafted from durable, dishwasher-safe melamine! In a range of shapes and sizes, these pieces are the ideal way to present bread or hors d'oeuvres with rustic warmth. And because they're made of easy-to-sanitize, stain-resistant melamine, you can create gorgeous displays without sacrificing safety and practicality.

At 17-1/4" in diameter, this acacia wood round serving board has the room you need for buffet presentation or appetizers. Hidden feet underneath allow for just enough space to easily lift and serve the board to the table. Unlike traditional natural serving boards, this piece serves the look of wood with the ease of handling that only melamine offers. Acacia wood meets melamine. It's truly the best of both worlds. Not recommended for microwave use.
