The dark side never looked better than on these unique wood boards. The wood is carbonized to give off rich colors and patterns on both sides.

This 13-1/4" L x 5" W carbonized bamboo serving peel sets a complementary stage for hors d'oeuvres, bread and cheese boards – especially because it's reversible. Whether rich, dark brown or warm, brighter brown suits your presentation better, you have your solution here. A handle on one end makes transportation easy, and a small hole lets you hang up this peel when it's not in use. The bamboo's natural wood grain gives each piece a one-of-a-kind pattern of warm earth tones. It's the elegance of nature put to good use: making your culinary creations shine. Hand-wash only and wipe down with a damp cloth after use.
