Proper measuring is one of the most important keys to successful cooking and baking. Let our collection of long-handled measuring cups help you with that! Specially designed with extra-long wire handles, these cups offer quick and efficient scooping while minimizing hand-to-food contact. Highly durable, they have a 200 series stainless steel construction that can endure regular use at any busy commercial kitchen. Plus, not only do these cups stack, but they can also hang for space-saving storage. We conveniently offer a wide range of size capacities to accommodate all your kitchen's needs! Sold individually.

Measuring at an overall length of 9-5/8", this 1-1/2-cup wire-handled measuring cup makes baking a breeze. Unlike standard measuring cups, this cup is specially designed with an extra-long 6" wire handle that allows for quicker, more efficient scooping. The long handle also minimizes hand-to-food contact, preventing contamination and ensuring food safety. With its 1-1/2-cup capacity, this measuring cup is ideal for accurately measuring out dry ingredients, such as sugar, salt, baking soda, oats, nuts, and flour. It is a must-have utensil for creating the perfect cake and brownie batter, or pie, bread, and pizza dough. When not in use, the wire handle serves as a hanging hook for out-of-the-way storage. Best of all, this cup is constructed of durable 200 series stainless steel that can withstand the everyday wear and tear of busy commercial kitchens. Use this measuring cup at your pizzeria, restaurant, diner, bakery, cafe, or hotel kitchen. Dishwasher safe for easy handling.
