Equally elegant and eye-catching, the Mesa Collection is a fabulous way to make your buffet service memorable. Featuring a classic combination of wrought iron and hammered copper or stainless steel, each of these items works independently or as a cohesive collection.

Don't just keep coffee and other beverages hot. Add some sizzle to their presentation with this gorgeous, classically-styled round copper hammered stainless steel urn. Its 3.25 gallon (52 cup) contents are easily kept warm by a can of chafer fuel placed on a built-in shelf beneath the urn. And they're easily dispensed by its easy-flow spigot, while its black base is stylish, sturdy and allows the urn to be easily removed. But it's the urn's look that truly sets it apart. With a hammered copper finish that evokes an old world craftsmanship, it lends elegance and class to any contemporary setting. From fine dining to fancy events, this urn will suit even the most discriminating diner's fancy.
