Made of NSF-and USDA-listed material, these pressed wood serving utensils offer affordable convenience to any operation! Get both the spatula and turner to accommodate all your basic cooking, baking, and serving needs. Unlike metal serving utensils, these wooden servers are gentle with your cookware. No damaging scratches here! While economical, these servers are top notch quality with seriously impressive durability.

This 12"-long pressed wood turner offers affordable convenience to any operation. Constructed of durable and natural-looking pressed wood, this server is an economical and quality alternative to metal turners. It is made of both NSF and USDA listed material that does not harbor bacteria and will last long in a commercial setting. Featuring straight sides and sharp corners, this turner gently slides under your burgers, steaks, poultry, and vegetables, flipping them with ease and care. Use it for all your turning, lifting, and serving needs! Plus, the long handle keeps your hands a safe distance from sizzling foods and free of hot grease splatter. Best of all, unlike metal utensils, this wood turner won't leave any scratches behind on your cookware. For out-of-the-way storage, take advantage of the handle's convenient hanging hole. Use this turner at your restaurant, bakery, diner, cafe, or hotel kitchen. To care for your pressed wood server, wipe it clean with a damp cloth without soaking.
