Say hello to your dream turner! Designed with a stainless steel offset blade and cool-to-the-touch handle, our wood-handled turners are durable and efficient. They flip foods with ease, while also keeping your hands safe from hot cooking components. Their wood handle adds a classic, rustic flair, making these turners an attractive choice for front-of-house use. We offer straight, round, or perforated blades – as well as a number of blade sizes and handle lengths – to accommodate all your turning needs!

This 11-5/8"-long wood-handled hamburger turner / pizza server is the ultimate two-in-one product! Its large stainless steel offset blade measures at a length of 6" and width of 4". The blade's straight edges scrape up your burger patties and pizza slices with precision, ensuring that every last bit of flavor is lifted from the grill or pan. The blade is also sharp enough to chop up steak, poultry, and vegetables while cooking, eliminating the need to pre-cut product. The durable, cool-to-the-touch wooden handle provides a firm, comfortable grip, helping to prevent fatigue during repetitive use. It also offers an attractive presentation for front-of-house serving. When flipping, this grill spatula's overall long length keeps your hands a safe distance from sizzling foods and free of hot grease splatter. Constructed for long-term commercial usage, this turner/server is resistant to corrosion and will prove reliable in your busy kitchen for years on end. Use this turner/server at your pizzeria, steakhouse, fast-casual restaurant, diner, food truck, concession stand, or hotel kitchen. Hand wash only.
