Dazzle your customers with 5-star service when you deliver their pizza orders using our all-in-one delivery bags! Available in a variety of sizes and styles, these durable bags can accommodate deliveries for any type of establishment in the foodservice industry. Whether you run a pizzeria, fast-food restaurant, sandwich shop, or catering business, this collection has the right bag (or bags!) for you. We have specially designed all our delivery bags with thick insulation to keep hot foods oven fresh during transportation – your customers will receive the same quality at their door as they would at your restaurant. We have also made sure to include comfortable carrying straps, so your staff can complete heavy and multi-stop deliveries without breaking a sweat. Constructed of high-quality materials, our bags will prove to be dependable even with daily long-term use!

With its durable polyester construction and reinforced stitching, this deluxe black catering delivery bag is the prime solution for delivering pastas, salads and other family-style feasts. Measuring at a length of 22", width of 13", and height of 16", it can fit 3 full or 6 half-size food pans. It also includes adjustable shelves and a reinforced frame to provide support for your to-go containers. Most importantly, its 5 mm polyethylene-insulated lining with foil finish and secure hook-and-loop closure ensure maximum heat or cold retention. Your customers will be able to enjoy exceptional food no matter the delivery distance. The 2" wide carrying straps offer comfort and help keep containers and boxes upright, while the easy zip front-loading flap allows for quick food transfer. The multifunctional transparent signage window can serve as a display for your company's logo, or as a compartment for business cards and coupons. Designed with convenience in mind, this satchel is easy to clean and compactly folds for space-saving storage. It is also resistant to abrasions, mildew, and fading so you can use it at your pizzeria or restaurant for years on end!

- Polyester, Polyethylene
