The BuffetBoost Warmers Collection, where culinary excellence meets innovation in food presentation. Engineered to deliver precise temperature control, each unit keeps food at its ideal serving condition — from gentle warming to higher-heat applications — offering the versatility to adapt to a variety of culinary needs. With the option of AC or battery power, BuffetBoost Warmers bring flexibility to any setting, whether you're hosting an intimate gathering or a grand event. Combine multiple units to create a custom setup, and pair with our compatible BuffetBoost crates, available in a range of finishes to seamlessly elevate your presentation.

Ensure uninterrupted service with our heavy-duty, 120W AC Adapter/Charger, designed specifically for the high demands of commercial use. This replacement or spare adapter is not only powerful enough to operate our Warming Block efficiently but also charges the BuffetBoost Lithium-Ion Battery swiftly, keeping your service running smoothly without missing a beat.
