Power your buffet without limits. The BuffetBoost Battery Collection delivers the freedom to go cordless, keeping every presentation effortless and adaptable. At its core is our high-performance lithium-ion battery, designed for compatibility across all BuffetBoost products. The collection expands with versatile charging and power accessories that simplify setup and mobility—from buildable charging trays to the flexible PowerPack. Wherever your culinary vision travels, BuffetBoost Battery keeps the energy flowing.

Extend your battery power, elevate your setup. The BuffetBoost PowerPack holds two lithium-ion batteries (BWBAT, sold separately) and connects seamlessly to the LumaLamp or other BuffetBoost devices, giving you flexible, extended battery-powered operation. Crafted from sleek black finished metal, it also functions as a riser, keeping your buffet setup organized and visually polished. Whether used with a single LumaLamp battery today or future multi-battery units, the PowerPack enhances both performance and presentation.
