These miniature laser cut signs bring clear, professional labeling to even the smallest beverage stations. Their reduced footprint fits easily on any countertop, giving you the space you need to create the perfect display. With words to identify everything at the coffee station and more, you can be certain you have everything you need. Mix and match words and finishes across your setup to help guests quickly identify what they need in style.

Call attention to soy milk offerings in space-conscious layouts with this 1-1/4" black laser cut sign. It keeps skim milk clearly labeled on narrow shelves, back bars and micro coffee counters. Pair with other signs in the line to ensure your entire coffee station is labeled.
