Pack: 24

Cu. Ft.: 0.63

Weight: 12 lbs

These deep dish serving trays take pie pans to the next level! Use them to bake the ideal tender and golden pie crust, or as a serving platter for any other foods on your menu. Their durable 18 gauge aluminum construction offers efficient and quality baking, as well as a sleek and impressive tabletop presentation. Available in a variety of sizes, these pans can hold appetizers, entrees, sides, desserts, drinkware, and everything in between. They are sure to make you stand out from the other neighborhood pizza joints and restaurants!

With a top outside diameter of 10", top inside diameter of 9", bottom inside diameter of 7-3/4", and depth of 1-1/4", this versatile deep dish pan functions as both a pie baking pan and a clever serving tray. Constructed of durable 18 gauge, 1 mm standard-weight aluminum, this pan heats quickly and evenly throughout for the ideal golden pie crust. The tapered sides help keep the crust from slumping, while the wide rim allows you to get creative with crimped and fluted edges. Beyond baking, this pan's stylish design makes it perfect for plating a variety of foods, such as burgers, sandwiches, chicken fingers, and fries! The tall sides prevent food from rolling off, so your customers can enjoy a mess-free experience. Use this pan to enhance your serving presentation at your pizzeria, diner, cafe, bar, or fast casual restaurant. The aluminum construction is resistant to corrosion and wear, so it will remain good as new for years on end. Made in the US. Hand wash only using aluminum-safe detergent.
